

## Cellular Alarm Instructions Blackberry only

**IMPORTANT:** First install the “Blackberry Desktop Software” CD that came with your phone or download from

<http://na.blackberry.com/eng/services/desktop/>

- 1) Click **Download** from this webpage where it says **iWallet Bluetooth Alarm Software for BlackBerry**
- 2) Unzip and open **iWallet\_Blackberry\_V0106** folder
- 3) Open **walletBB.alx**
- 4) Open the **Blackberry Desktop Software** already downloaded and connect your **Blackberry phone** to your computer
- 5) Click on **APPLICATIONS**
- 6) Click on **IMPORT FILES**
- 7) Click **APPLY** - installation will begin on your **Blackberry**
- 8) The **iWallet icon**  will appear on the screen on the **DOWNLOAD FOLDER**
- 9) Pair **iWallet** with **Blackberry** (refer to **Owner's Manual**)
- 10) Open icon  on your **DOWNLOAD FOLDER**
- 11) Click **WALLET TRACKING**
- 12) Click **Done**
- 13) Go back to desktop

**The iWallet and Blackberry alarms will now sound if both devices are separated by more than 20ft\* from each other**

**ALARM DISABLING:** To disable alarm on the Blackberry, go back to icon  and click **ALARM STOP**

\*distance greatly varies according to environment
